About this project

Aphrodite Infinity is a contemporary residential development situated in the charming Gaziveren area of Güzelyurt District on the western coast of Northern Cyprus. Although specific branded project information for “Aphrodite Infinity” is limited online, the name closely aligns with the Aphrodite Aqua / Aphrodite beachfront projects in Gaziveren — a rapidly growing seaside community known for its Mediterranean views, beach proximity, and high investment potential. These developments are typically located just a short walk from the Mediterranean shoreline, offering residents easy access to sandy beaches and picturesque coastal scenery. This 2+1 apartment within the Aphrodite Infinity collection is designed for efficient and comfortable living, ideal for individuals, couples, or investors seeking a modern coastal property. Featuring an open-plan layout, ample natural light, and balcony or terrace space with glimpses of sea and mountain views, the unit blends contemporary design with functional utility. Its size and thoughtful layout make it suitable for permanent residence, holiday retreats, or short-term rental opportunities in North Cyprus’s vibrant real estate market. Residents of Aphrodite-branded developments in Gaziveren benefit from a growing range of on-site and nearby amenities. These can include landscaped communal areas, swimming pools, wellness and fitness facilities, and easy access to local cafés, shops, and outdoor leisure options. The Gaziveren area itself is known for its natural beauty, citrus orchards, and proximity to historic sites like the ancient city of Soli, adding cultural and lifestyle appeal to your property investment.
